

EXPERT SOLUTIONS

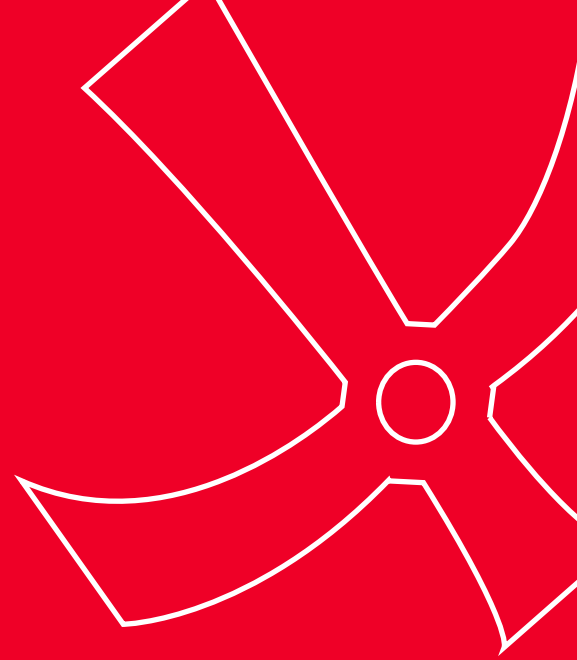

Growlite and Barron provide a complete suite of products that offer lighting solutions for your entire grow facility. All of our luminaires are rigorously tested in real world installations and are listed to UL standards. Whether using pole-mounted fixtures in the parking lot, general service lighting in the corridors, or Growlite's cutting-edge horticulture lights, operators can be confident in the durability, performance and safety of our lighting products.

“ Finding a reputable horticulture lighting company who cares about your grow is difficult enough. Finding a general service lighting company who understand the needs of your grow facility inside and out is almost impossible. Growlite offers that one-two punch of horticulture and general lighting knowledge all under one roof.”

Mark Thomas
Growlite Sales Manager
